

Serial No. 10/735,820

Response to Action Dated November 30, 2004  
March 30, 2005**REMARKS/ARGUMENTS**

Applicant's invention is recited in the claims pending in the application.

In the pending Official Action, the Examiner has allowed claims 1-16, and has additionally accepted the drawings filed December 16, 2003. Moreover, the Examiner has acknowledged applicant's claim for foreign priority as well as receipt of certified copies of the priority documents.

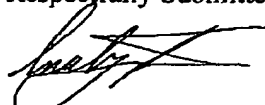

However, the Examiner has objected to the specification and the claims.

The Action was thus designated as a Quayle Action, requiring correction of the specification and claims.

In order to expedite issuance, the present amendment corrects each of the informalities noted in the pending Action, with minor syntactical modifications as appropriate, and also corrects a small number of additional informalities.

Accordingly, it is respectfully submitted that the application is in condition for allowance and an early indication of the same is courteously solicited.

Respectfully Submitted,
